

Our Lighting solutions make it bright in cooking!

about us

Wentai Technology Corporation is a manufacturer of LED lighting and power supply in Taiwan. We provide the comprehensive OEM/ODM services and give you the best feedback of solutions.

why trust us

◆ We deliver quality and reliable service.

We achieve international standards and certifications including ISO 9001, ISO14001, TS 16949, RoHS, TÜV etc. We provide long-lasting and durable lights that can lower overall operating costs.

◆ We accommodate small volume quantities needs.

We are punctual and flexible to fulfil our customers' requirements.

◆ Be your design team.

As a LED luminaires expert, we offer suggestion on how to optimize design, reduce cost and time to market. With our in-house R&D team, Wentai Technology strives to provide innovation solution and continues to refine our production technology capabilities.

who we work with

The LED lighting and the Bulb are specific used for range hood.

The working temperature is up to 70°C / 60°C.

Over the years Wentai Technology has developed to an important OEM-partner for several large companies in Japan and Germany.

Our LED luminaires are used for:

- ◆ Kitchen appliance/ Kitchen furniture (Range hood lights, Cabinet lights).
- ◆ Offices/ Warehouses/ Factories (Recessed luminaires, high bay, floodlights).
- ◆ Residential (Electric fireplace lights, Ceiling lights, Down lights, Track lights).

We welcome small batch diversified production and keep our customers of timeliness and flexibility.

our goal

Wentai Technology provides the high-quality solutions of LED luminaires and integrates with range hoods and kitchen cabinet. We are looking for partners who want to make lights perfectly fit their specific product design. Our LED lighting would play an important role to improve user experience.
